Merlin

FREEDOM THROUGH FLEXIBLE SOLUTIONS

"There are certainly less clinical cases of mastitis now and I think this is due to each quarter being milked out individually and the backflush."

Ali Dobson. Cheshire

**CONSIDERING FULLY AUTOMATED MILKING?

"Our cows are being milked an average of 2.8 times per day which has helped to significantly improve milk yields."

Willem van der Horst.
Holland

"Pedometers are the one piece of technology every farmer should have. We serve blind on it and it has dramatically increased our conception rate."

Russell Marchant. Principal
Barony College. Dumfries

"We're installing another 2 Merlins in June to add to the 3 we already have. With planned herd expansion we hope to increase the number of Merlins to 7 by around January next year."

Vagn Christensen. Denmark
